LARGEST PAID CIRCULATION IN WASHINGTON TOWNSHIP

VOL. XXI — NILES, ALAMEDA COUNTY, CAL., FRIDAY, OCTOBER 27, 1911 — No. 9

Mass Meeting at Centerville Next Monday Evening

A mass meeting of the citizens of Washington Township is called for next Monday evening, October 30, at the Town Hall in Centerville, to consider the water supply question of the township. The meeting should prove one of the most important ever held in the Township. It is called to take action with reference to the grave danger that menaces our township's water supply. Every property owner of the township, who is interested in the future welfare and prosperity of our section, should **attend this meeting.**

The relation of the several water companies who are already draining off our water supply, the relation of others who are getting ready to do so, and the necessity for strengthening the claim of San Francisco to its proposed Sierra supply will be considered.

No graver question ever confronted our people. The opportune time to strike a blow for future generations is **at hand.** If allowed to pass because of indifference, or worse, this chance may not come again in years.

San Francisco is about ready to send its report to Washington. The people who have the report in hand are waiting to hear from this section, whose relation to that city's water supply is a most vital one. Her people are ready to receive our protest and our petition. It must be received before another week passes. No more time can be lost.

The PRESS now makes its final appeal to the people of Washington Township to arouse themselves and make themselves heard. Let us make the meeting a representative one. Every section of the Township should be represented. The time for action is here now. It will soon be too late to strike the needed blow.

San Francisco wants the Hetch Hetchy water supply and we want her to get it for our own protection. This meeting may do much to help her get it.

Attend the meeting. Get all you can to go with you. Come ready to **act.**

Niles Notes

Capt. and Mrs. Howard of San Francisco were at Belvoir over the week-end.

[Mrs.] Arnold [has] been the guest [of] Mrs. DeCora for the past past week.

Mrs. W. Graham of Berkeley is spending the week with Mrs. Chittenden.

Mrs. P. A. Ellis joined her daughter Grace in San Francisco for the last few days of the Grand Chapter of the Order of Eastern Star.

Miss Margaret Crothers went to Pacific Grove with the Huxley family and enjoyed a pleasant outing on the shores of beautiful Monterey Bay.

Miss Emelita Mayhew has joined the student colony in Paris where she will probably remain until the New Year.

At the reading Club meeting on Monday the subject of Berlin was continued, and a letter of travel was read from that City. Mrs. Snyder also gave a sketch of the life and the writings of the Norwegian author Bjornsen.

Dr. Morrison and family have taken up their residence in Dixon, where the Doctor has commenced practicing.

Mr. and Mrs. W. B. Kirke at the California Nursery are enjoying a visit from Mr. Kirke's mother, whose home is in Salem, Oregon.

Mrs. B. L. Tyson has been spending the week in San Francisco.

Mr. and Mrs. Jimmie McCray returned from their honeymoon trip in the north on Tuesday of this week. They have taken up their residence in one of Mrs. Butts' cottages on Third street. On Wednesday evneing they were given the customary chariveree and pleasantly entertained the young people in their cozy little home.

The J. Lanfri house has been moved from its former location in old town to the Ellsworth tract on Third street, Mr. Lanfri having purchased a lot some time ago. tI was necessary to take the house up by the Belvoir crossing in order to get it on this side of the track.

NILES PEOPLE INJURED IN AUTO ACCIDENT

In this morning's dailies an account appeared giving the details of a serious auto accident in which two former residents of Niles, Mr. and Mrs. Harry Chace narrowly escaped death. They were with a party of six riding in the Park in San Francisco and in some unknown manner, the auto was Both Mr. and Mrs. Chace were taken to the hospital and were found to be Chace is Mrs. J. E. Easterday's sister.

BODY OF MANUEL MUCHADO FOUND IN HIS BEDROOM

Manuel Muchado, a well-known rancher and pioneer resident of this section, committed suicide Tuesday by taking a quantity of strychnine.

His lifeless body was found in his bedroom by his wife at the family home, [Mission] San Jose. The remains were removed to the coroner's office at Centerville, where an inquest will be held nevt Monday. When the discovery was made a physician was called and stated that the man had been dead several hours.

Muchado was 60 years of age and a native of Portugal. He had lived near here for many years and owned some of the best ranch property in this section.

PASSMORE CONCERT AT DECOTO MASONIC HOME

On Sunday afternoon, Oct. 22, the residents and a few invited guests enjoyed a rare musical treat, the occasion being one of Prof. H. Passmore's famous vocal concerts. At the close of the regular Sunday service, which is conducted by Supt. Hartman, Prof. Passmore took charge of the regular musical hour, and with the assistance of his daughter, Miss H. Passmore, Miss Graham, and Mr. Nevius all members of the Passmore Vocal Studio, rendered several excellent selections.

ENTERTAINMENT AND DANCE MAPLE HALL NOVEMBER 11

The committee in charge of the dance and entertainment to be given by Orient Chapter Order of Eastern Star on Saturday eve, November 11, is hard at work planning a mot esnjoyable time for all who attend. One of the attractions for the musical program will be the rendition of a number of operas on the large orchestrion by Mr. DeKnight of San Jose. The men of the township will be glad land Saturday tendered by Mrs. R. who has attained considerable fame as a specialist in the making of clam chowder, has promised to favor all who wish with one of his choice treats.

The ladies havei n imnd the furnishing of the new Masonic Hall at Centerville and certainly should meet with the generous support which their efforts deserve.

LADIES GUILD

The Ladies Guild of the Congregational church met in the church parlors on Wednesday afternoon, with thirty-three ladies present. The regular order of opening service was engaged in. A vote of thanks was extended to those who had secured a gift of a piano and stoves for the new church. Mrs. Evans was appointed to decorate the church for the following Sunday. Mrs. Higley reported on recent purchases for the Guild. Mrs Schofield read an article on the laws relating to citizenship for women who wish to vote.

Mrs. Jones and Mrs. Higley were appointed a committee to secure a new carpet for the new church. The hostess for the day served refreshments before adjournment. A special meeting was called for the following day to complete work in hand. The next regular meeting is in two weeks withh Mrs. Jones and Mrs. Snyder as hostesses.

Game Warden's Cases Collapse

The trial of Fred Dassel, charged by Game Warden Downing with having an illegal hide in his possession was hheld in the court of Justice of the Peace Ferreira at Decoto last Saturday and resulted in a prompt verdict of not guilty by the jury subpoened to try the case. The defendant was represented by Attorney T. J. Power of Irvington and the prosecution by Deputy District Attorney A. A. Rogers. The evidence presented by the prosecution was of the flimsiest nature and demonstrated the far fetched attempt on the part of the over zealous game officials to convict an innocent party of a crime.

The evidence adduced by the witnesses for the prosecution who were Game Warden Downing, Deputy Game Warden Easterday, Constable Roderick, attempted to show that a deer skin found in the possession of Jere Burnett along with a number of others had been acknowledged by Dassel to be his. The evidence of John Dassel, father of the defendant, showed that the hide had not been in the defendant's possession for some time, that it was the hide of a male deer and that no attempt had been made by the defendant to violate the game laws. The attorney for the prosecution, Mr. Rogers, in his plea to the jury, stated that either the defendant had lied, or the three stalwart officers of the law had done so. The jury evidently refused to believe that the defendant had lied for it was out but a few minutes when it brought in a verdict of not guilty.

In spite of the public assertions of the officials that the defendant, and had been fined $25, the fact remains that the defendant was promptly acquitted by the jury.

The disastrous result of the Catterlin case the day previous, and the inglorious ending of the Dassel case, evidently forced the officials to go to the bat, so to speak, on other cases. On Tuesday Harry Abbrott and Frank Crane of Niles were brought before Judge Ferreira by the same officials on a similar charge of having in their possession deer hides with the evidence of sex removed. Both pleaded not guilty and in spite of the persuasive powers of Constable Roderick and Deputy Game Warden Easterday both stoutly maintained their innocence and refused to extricate the embarassed officials from their pitiful predicament by pleading guilty. They were promised extreme clemency but were not obliging enough to offer themselves as a sacrifice in order that the officials might save their official faces. Rather than go to another jury trial, the charges were dismissed Thus did the effort to fasten the odium of violating the game laws upon upright and worthy citizens end in a disastrous failure. The whole proceeding has shown the officials up in anything but a creditable light. If the purpose of the prosecution (which bore most glaring earmarks of a desire to get a CERTAIN individual) had been prompted by a genuine desire to protect the game and enforce the law against the real violators, the officials would have the support of every law abiding citizen. The truth of the matter is that all those against whom charges were brought were etirely innocent of any intention to violate the game laws. They had brought their game home openly and above board, and why such a stupid and apparently malicious attempt has been made to convict them of crime is a question which the officers themselves will find hard to explain.

Now that the much whispered about prosecution has been carried out, against these men, it is being wondered whether the trio of officials will proceed against the Niles tanner who has been their star witness? Now that the machinery of the law has been invoked against men who have not been guilty, will the guardians of the law now proceed against those who are openly charged with flagrantly violating the law? The action of the officials will be watched with interest in the remaining cases.

By the way what will be done with a deputy State game warden who partakes of a feast of quail before the quail season is out? Will the State Game Warden countenance such an action in his trusted deputy?

An Incorrect Report

The reporter for the Township Register allowed an error to creep into his quotation of the remarks made by the editor of the Press at the last meeeting of the Niles Chamber of Commerce regarding the action of the Newark Chamber of Commerce in not affiliating with the Associated Chambers. We take it that the error was unintentional but nevertheless it was a mistake which we cannot allow to pass uncorrected.

The editor of the Press is credited with saying that he thought the action of the Newark body was a selfish one. Some one else may have made the remark but the editor of th Press DID NOT. We believe the action of the Newark Chamber was not prompted by selfish motives at all but by a sincere objection to delegating too much power to its representatives. We are anxious to see the Chamber at Newark affiliate with the Central organization and as Secretary of the Associated Chambers, we would be the last person to arouse a spirit of resentment and antagonism.

RUGBY GAME AT CENTERVILLE SATURDAY

On Saturday afternoon at Centerville the rugby teams of Hayward high school and Union high school, No. 2, located at Centerville, will play This game will practically decide the championship of the Central Alameda Athletic League. Both teams have defeated Livermore high school and three weeks ago a 3 to 3 tie game between these two schools was played at Hayward.

COMMITS MURDER AND IS KILLED

Manuel Garcia of Mission San Jose in an insane fit of jealousy shot and killed Simeon Romero of Monterey and attempted to kill Miss Belen Quezeda at the young lady's home in San Jose Tuesday night. He then went to Mission San Jose and the next morning was killed by a posse of officers from San Jose headed by Sheriff Langford.

Garcia had been employed as stableman by the Quezadas, a wealthy Costa Rica family. He became infatuated with Miss Belen Quezada and when Romero who was a prominent young man of Monterey came upon the scene a few days ago, Garcia became insane with jealousy. Tuesday night after the theater, Garcia came into the kitchen of the Quezada home where Romero and Miss Belen were and shot and killed Romero, and also attempting to kill the young lady. Fortunately she escaped with a wound in the left thigh.

Garcia then mounted Miss Quezada's thorough bred and spent the rest of the night at Mission San Jose

When he met the Sheriff's posse on the road just below Warm Springs and was commanded to surrender, he slid down behind the horse and began firing. The officers opened fire and both the horse and Garcia were killed.

Garcia was a brother-in-law of Joseph Rogers, postmaster at Mission San Jose and was 25 years of age. His father is an inmate of Agnews Insane Asylum.

HIGH SCHOOL GIRL SURPRISES FRIENDS

The intimate friends of Miss Bessie Bayley of Sunol, a member of the Class of 1912 of Union High School, No. 2 of Centerville, were given a surprise when they learned on Thursday morning that the young lady had giveen up attending school and was leaving on her wedding tour. The happy young man is Mr. Ray Genelly of San Francisco. What was an added surprise to her friends was the fact that the wedding had taken place about two months ago and the young people had been able to guard their secret until they chose to tell their friends.

The bride is a very charming young lady whose parents have been residents of Sunol for a numebr of years, her father being the agent for the S. P. Co. During her school life, Mrs. Genelly has been a general favorite among her school mates and with her teachers. The school regrets to lose one of its promising pupils. The young couple will spend a year in the East and will then return to San Francisco to make their home. Mr. Genelly is a young business man of that city and has been one of the City's successful young men. A bright and happy future is predicted for these young people by all who know them.

The Class of 1912 has been given the name of "The Leap Year Bunch", this being the fifth young lady who tired of the theory of household economics and has chosen rather the practical course.. Perhaps there will be no 1912 class unless Cupid rests awhile.

Newark

A Junior Christian Endeavor Society was organized on October 8, with Miss O. Smith as superintendent afternoon at four o'clock. Evelyn Haley was chosen president for the ensuing months.

Dr. and Mrs. Curry are attending the meeting of the Synod at Long Beach. They are eexpected home the end of the week.

Mr. James Spencer is attending the Synod at Long Beach, and visiting friends.

Mr. and Mrs. G. T. Crandall of Alameda were recent guests of Mrs. C. S. Haley for the week-end. Mr. Crandall is a member of the lumber firm of Masterson and Crandall of that city.

What is the reason the wind mills erected by the county in the vicinity of Newark should be neglected and wear out before time for want of oiling. People who live in the neighborhood of the mills are kept awake and one of our esteemed women residents declares she is becoming a victim of nervous prostration on account of the never ending nuisance. Who is responsible for this?

Mrs. Isabel Jordan of Livermore spent several days last weeek at the Haley home.

TO BE IN NEWARK.

Through the invitation of some of her friends, Mrs. G. A. Neth of Los Angeles will be in this part of the country the first few days of November.

She will meet the people of Newark at the Presbyterian Church on the evening of November 1, at 7:30, and will give one of her drawing room lectures.

TheSa n Jose Mercury and Herald has this to say of her:

"Mrs. Neth is a charming little woman, one of keen perceptions, a well-trained mind, a pleasing personality. She is particularly equipped for work in her chosen field. From the institute her efforts are expended among the children and in the homes, largely the homes of the wealthy folk of the Southern city. We are accustomed to reports of work among the "slums," but not many consider the dearth of Bible instruction in homes of culture and refinement.

And so Mrs. Neth has instituted what are called "drawing room lectures" and at these meetings she meets Christian workers and those that never go inside a church. Mrs. Neth has been a homemaker and a society woman and well knows the worries, the cares and the needs of those for whom she labors.

She is an earnest, Christian woman who takes not a "jot or a tittle" from the orthodox interpretation of the Scripture, but she presents her argument in persuasive if compelling terms, so earnestly and pleasing that the most indifferent will listen.

Those who are not availing themselves of the privilegee of hearing Mrs. Neth are losing an opportunity, one greater than they know."

"THE LIBERTY OF THE PRESS IS THE HIGHEST SAFEGUARD TO FREE GOVERNMENT"—Col. E. D. Baker.

For President

Robert M. LaFollette

A year and a half ago the PRESS raised its flag for LaFollette. He may not be nominated for the presidency, but he ought to be. We are for LaFollette.

A Municipal Water District

The Press this week presents to its readers the idea of a proposed water district embracing the entire bay section. We commend the article to all who are interested in the water supply question. It is about the only phase of the vexed water question that holds out any hope to our people for the future.

Simply stated, the scheme proposes the formation of the thickly populated bay seection into one large municipally owned water district. If carried out it means that the people of the bay section will eventually absorb all the big water companies around the bay, and supplement this supply with the water to be brought from Hetch Hetchy. Such a scheme if carried out will eventually prevent the devastation of this fertile agricultural section and reopen much of the land to settlement which is now controlled by the Spring Valley Co. If Hetch Hetchy supply is brought [illegible] to rob the agricultural section of every drop of water which can be drained from it. Much of the water now being taken can be applied to the development of our magnificent resources and even supplemented by the supply that can be brought from the Sierras. The development of the scheme along true conservation lines will tend to preserve and even promote the wonderful possibilities of the bay section. The increase in population about the bay is bound to be rapid in the next twenty years. The demand for water will be greatly increased not only for municipal purposes, but for the intensive cultivation of our already fertile soil.

The scheme is not only comprehensive but it is extremely utilitarian and appeals to all who wish to see a wise conservation and application of this great resource for the benefit of the millions of people who shall some day need it badly.

Mr. Dockweiler, who has so industriously labored in behalf of this great project, is certainly doing a great work for the future generations who shall make their homes in this promising bay section.

The time for our people to take the necessary steps to guard the future welfare and prosperity of the bay section is at hand. Every person who desires to promote the happiness of our people in the future should get busy at once & help strengthen the hands of those far-seeing men who are trying to convince the national goveernment that Hetch Hetchy is an indispensable factor in the future development of our bay section.

Presidential Primaries

It is very likely that Governor Johnson will recommend to the legislature at the coming session that the present primary law be changed so that the voters next spring may have the opportunity of expressing their preference for presidential candidates. As the law now stands the progressive Republicans have it in their power to name a LaFollette delegation to the national Republican convention should they so choose. As the law now stands the delegates elected to the county conventions last year have the naming of delegates to the State convention which in turn names the delegates to the national convention.

It will be seen therefore that if the present State administration should decide to amend the present primary law so as to permit the voters to express their preference, they will not only be relinquishing the power that now lies in their hands, but they will most surely be inviting a contest Viewed from the standpoint of the "practical" politician, they will be doing a very unwise thing to give up a decided political advantage.

The question of expediency, however, will not weigh in this case. It is the right way and the patriotic thing to give the people the chance to express their preference. The administration ought not to lose if it is willing to trust the people. So far the progressive fight has been made for the principles of popular government and the presidential primary is a true fundamental reform which we would all like to see given to the people.

Prostituting Public Office

The prosecution of several citizens of Niles on alleged offenses against the game laws of the State during the past week has not served to inspire any great degree of confidence in the game officials in this section. If the men charged had been violaters of the law, the people of this community would have backed the officials in their efforts. But the real motive lying behind the prosecution has apparently been more of an attempt on the part of at least some of the officials to prostitute their official position to punish a CERTAIN individual who has incurred their political enmity. Prosecution of this sort becomes persecution and deservedly earns for those who are parties to it the strongest condemnation and the profoundest contempt of all fair minded citizens.

Such methods might have been tolerated when the game commission was purely a political asset of the old political machine. But the day has passed, even in Washington Township, when the creatures of political bosses will be allowed to do dirty politics by virtue of their public position. Sooner or later, even the ancient relics of the old system will realize that a newer and better standard has come into our political and official life.

Government by County Charter

As a result of the adoption of the amendment permitting counties to form their own charters subject to the approval of the legislature, a movement has already been launched in Oakland to take advantage of this opportunity.

The adoption of a charter government by the people of Alameda County will be a mose important function and one which will vitally affect our section of the county. Our people should carefully watch every step that will be taken in this matter.

There is no doubt that a much better and more satisfactory form of county government can be worked out. Also a much more unsatisfactory one to the country section. It will behoove us to watch with a jealous care the various moves that will be taken in this important matter. The Press will endeavor to keep the people fully informed of the various developments which will ensue. It is needless to say our most miportant work must be done before the charter is submitted to the people

PATTERSON

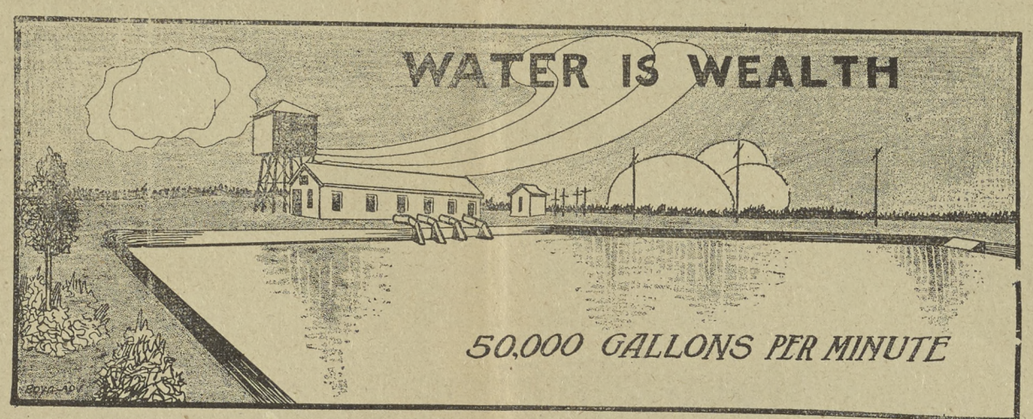
"WHERE THE LAND OWNS THE WATER"

A part of 18,000 acres of the best irrigated land in America is here for the man who acts **NOW.** At Patterson the water is abundant, the soil rich and deep, the climate perfect. The result and profit of your effort is not problematical. **IT IS ASSURED**

THE PROBLEM OF SURE PROFIT is solved by the irrigated farm. Intensive farming insures you the maximum of production with the smallest amount of land, labor and money.

To the man of small means Patterson makes its strongest appeal.

ACT NOW



DAIRYING PAYS BIG AT PATTERSON Stanislaus County leads all California in dairy products. One acre of alfalfa produces abundant feed for two cows. Here, your cow will net you $7.00 to $9.00 monthly in butter fat, and the skimmed milk turned into hogs and poultry brings large returns.

The water is available every day in the year. The supply is amply abundant—certain. With this irrigation you can raise successfully everything grown in California. Here you can get more crops, better crops—biggest crops, at a market value that insures the greatest profit.

Social Column

On Saturday last Mrs. P. C. Hansen entertained a large number of her friends at whist. The rooms were very prettily decorated by Mrs. Hansen's niece and the guests were from Centerville and the neighboring towns.

Great merriment prevailed throughout and when the final score was announced it was found that Mrs. Lou Eggers and Miss Miranda Norris had tied for the largest score, and Miss Norris won on a cut, a beautiful cut glass bowl. Likewise, it was found that Mrs. Crothers and Mrs. Horner were obliged to cut for the consolation prize, Mrs. Crothers receiving a handsome Japanese basket flower holder.

Dainty refreshments were served and the company separated after a delightful social afternoon.

NILES LIBRARY ADDS BOOKS

The Niles Free Library has been the recipient this week of a fine new set of twenty-three volumes of the New International Encyclopedia sent out by the Oakland Free Library. It is a splendid addition to the splendid equipment, and will be of great service to the pupils of both the grammar and high school pupils. The Niles library is certainly most generously cared for by the management of the County branches. Last week two hundred views were sent with two fine steroscopes. It is hard to express the great pleasure and the great good that this addition will bring to the patrons of the Nileslibrary. The views are from scenes in in the United States, China and Japan.

form rate to all within the district.

Each city or town is to own its own distributing system, collect its own water rates, etc., and thus each city will have its own municipal water plant, receiving water at its own town limits from a joint municipal plant (to wit: the district).

The district must sell water at cost, which shall include interest on bonds, sinking fund, maintenance, operation and deterioration charges.

The district must take care of everything outside of the city limits of the various towns or cities.

The district plan enables the carrying out of a water supply project which is financially impossible for any one city within the proposed district. parts of San Mateo, Santa Clara, Alameda and Contra Costa Counties, constitutes the financial, commercial, and shipping center of the State. Mrs. Elizabeth Scott

Mrs. Elizabeth Scott mother of Mrs. Wm. Snyder of this place, Winifred Scott of Fresno and Thos. Scott of Bakersfield, was laid to her final rest at Irvington, last Friday afternoon.

Mrs. Scott was formerly one of the pioneer residents of Alameda county having crossed the Isthmus of Panama in 1854, and lived for many years in Niles and Sunol. Her death occurred at the home of her son Winfield, in Fresno. She was born in Elizabethtown, Illinois, in 1822, and was eighty-six years old at the time of her death.

Funeral services were held on Thursday evening at Fresno and the body was accompanied by her two sons to Niles, where her many friends gathered to pay the last tribute of respect and sympathy.

She will be remembered by many of this county as a loving and devoted mother, and a kind and charitable neighbor.

pose of Senate Amendment No. 1, we believe that the best interests of the townships in this part of Alameda County will be served by its defeat. If Eden, Washington, Pleasanton and Murray are to be formed into a new county, it would be a great hardship to have all the railroad property of the new county withdrawn from the assessment roll. We therefore believe the voters of this section should vote against the amendment.

Further, there is a vital defect in the Amendment that it did not follow the recommendation of the Revenue Commission wherein the rate to be placed on the earnings of corporations was not allowed to stand for only a fixed period with power given to the legislature to fix the rates at stated intervals.

It will do no harm to try to perfect the Amendment before the radical change it proposes is made.

PROBABLY one of the most important of the constitutional amendments to be voted upon at the coming election, is known on the ballot as Senate Constitutional Amendment No. 31, and for the sake of preserving the business equilibrium of the state it should be adopted. This amendment provides a proper and expeditious method by which the life of present corporations may be extended, and it was adopted by the legislature for the protection of the banks of the state. Within the next ten years the charters of many of the largest savings banks of the state will expire under the fifty year limit allowed corporations in this state. Among these banks are such institutions as the Hibernia Savings and Loan Society, the Bank of California, the San Francisco Savings Union, the Gesman Savings and Loan Society and others. Under the present law these banks will be compelled to reorganize, a process that is tedious and will involve loss not only to the stockholders but to the depositors as well. In order to allow legitimate corporatious to continue business without loss of time or money the legislature has adopted Senate Constitutional Amendment No. 31, which is the law of nearly every state in the union, and has submitted it to the people for ratification. This is absolutely a legitimate ameudment and should be adopted for the protection of hundreds of stockholders and thonsands of depositors in the savings banks of the state.

HIRAM BAILEY is out with a paper on facts and figures. The principal fact contained is an invitation to vote for Bailey and a promise to divide the spoils of office. The whole thing is a colorless, lifeless, disconnected generality and will have little effect on the local situation.

creased taxation of the
tions, but by recourse to the
property tax in addition to
for local purposes.

The tax on corporations is st
limited by the constitution.
is no limit to State taxatio
property. Some say that the
posed system will work out equ
bly. Some say it will not.

Senate amendment No. 14—
amendment proposes to raise
salaries of the State officers to
following amounts: Governor, $
000; Lieutenant Governor, $4000;
Attorney General, $6000; Secretary
of State, Controller, Treasurer and
Surveyor General, each to $5000.

It fixes the maximum pay for
clerks in State offices at 1800 in-
stead of $1600, the present max-
imum. In this amendment there
is much discussion on the jump which
the lieutenant Governor gets from
$10 a day during a sixty-day session
of the legislature once in two years
to $4000 every year, with no in-
crease of duties.

SALARIES OF LEGISLATORS.

Senate amendment No. 16 —
This amendment removes the sixty-
day limit of pay for members of the
Legislature and fixes their salaries
at $1000 for each regular session
and $10 per day, for extra sessions.
It prohibits introduction of bills after
the first forty days of session,
except by a vote of three-fourths of
the members, and provides that the
expense for attaches shall not ex-
ceed $500 a day for each house.

Senate amendment No. 26—This
proposes to repeal the well known
section of the constitution which
provides that the tax on mortgages
shall be paid by the lender. By
an amendment adopted two years
ago the section which prohibited
borrowers from contracting out of
this provision was repealed, and
many mortgages are now made with
the proviso that the borrower shall
pay all taxes on the land.

ON STATE BONDS.

Senate amendment No. 29—At
present State bonds can be issued to
run not exceeding twenty years.
with one-twentieth of the principal
to pe paid for each year. This

te amendment No. 34 — The
ent constitution provides that
contracts for the sale of stocks
on margin, or to be delivered at a
future day," shall be void and any
money paid on such contracts may
be recovered by suit. This amend-
ment proposes that such contracts
shall be void only when there is no
"intention" to complete the tran-
saction by actual delivery but mere-
ly to pay the difference between con-
tract price and actual price on day
of delivery. It makes such contracts
non-enforceable by law and forbids,
instead of permitting, the recovery
by law of any money paid thereon.

ON THE PRIMARY.

Assembly amendment No. 3 —
This amendment authorizes the
Legislature to provide by law for
"primary election" without hold-
ing any convention, and declares
that until the Legislature shall enact
a law the present primary election
shall remain in force.

Assembly amendment No. 7 —
This amendment proposes to give
power to the Legislature to fix the
fees to be paid to grand and trial
juries at different rates in different
counties, according to population,
and to regulate in the same way
the fees to be collected by any pub-
lic officers for services performed.

At present all these fees must be
uniform throughout the State. The
fees of jurors must not exceed $3 a
day in any county.

FOR EVENING SCHOOLS.

Assembly amendment No. 3 —
As the constitution reads the rev-
enue from the State school tax fund
and the regular State school tax
must be used for the support of pri-
mary and grammar schools, but the
Legislature may —and does— levy
a special high school tax.

It has been claimed that this
money could not be used for the
support of those schools unless
they are held by daylight. The
amendment settles the controversy
by declaring that the funds may be
used for the support of schools,
whether held in the day time or
evening.

Every lot owner should feel a personal interest in keeping his frontage on the streets clean and tidy, also try to awaken an interest in every one, old and young, that our village may be made more attractive. The habit of throwing paper bags and trash of all kinds along the side-walks is a bad one in every way. A little raking and fire occasionally would give the visitors and passers-by a very different idea of us, and make for the advantage of our town in every way This might apply with equal force to our sister villages. Good work could be done in the schools by instructing the pupils to be careful not to scatter papers and trash along the roadsides.

Last Sunday evening Mrs. Houston had charge of the Christian Endeavor meeting and interested all by her descri..tion of attending the huge International Convention of 1894 when President McKinley was a speaker and of missionary work in Persia. Cypress Cemetery Association Meets

At the meeting of the Cypress Cemetery Association held at the Decoto School house last Saturday, it was decided to levy an assessment of $4.00 on each lot holder for the purpose of clearing up the indebtedness of the Association. It is the purpose of the Association to improve the water supply, to plant trees on the unoccupied half of the cemetery and also to erect a new fence when funds are available.

The assessment is payable before Dec. 1. Payment may be made to J. C. Whipple, the Secty. Treasurer. It is to be hoped that this will meet with a prompt response on the part of the lot owners and that the movement for an improved condition of the cemetery may prove a success.
